

Input INSS and Validator

Link towards TFS: User Story 58500.

Info for analyst.

As a user, I want to be able to enter the INSS of a person and the given INSS must be checked on correctness.

☐ Must be revalidated, because it was changed.
@ Vincent Van De Walle

- Content of page can only be changed after new validation.
- Link to future user stories will be updated without validation.

Goal of User Story

- Define when a INSS must be filled in.
- Mention components depending on the entered INSS.

Used definitions and Three Letter Words

Link towards overview: (Glossary)

- INSS.

Precedents - User Stories that call this functionality

- Default behaviour: INSS Component and Validator (Link) (User Story 58500).
- Behaviour changes: Input Nationality (Link) (User Story 60776).
- Component is part of: Initiate Add Employee (Step before Add Employee / Business Leader Wizard) (Link) (User Story 58494)

Scenarios

Every Rule, together with the rules inside the UX component, defined below can be use in combination with other Rules. The complete check are all the rules together.

When is an INSS mandatory?

- INSS must be filled in when Nationality is "Belgian".
- INSS can be filled in when Nationality is not "Belgian".

What components depend directly on INSS?

- Date of Birth (same screen) (Link) (User Story 58494).
- Gender (Wizard Step 1 - Personal Info) (Link) (TFS User Story).

Checks are executed

- The moment you start typing (UX component)
- The moment you cleared the value.

Examples

- When incorrect value is entered, show warning that it is wrong. (warning in UX component)
- When no value is entered, show warning that it is obligatory, when Nationality is "Belgian". (warning on Initiate Add Employee screen)
 - Warning: "National number is required for Belgian citizens"

Results Examples

INSS

12.34.56-789.01

⚠ No valid INSS

INSS

⚠ This field is mandatory

Dependents - User Stories that are based on this functionality

Translations

Item	English	Dutch	French
------	---------	-------	--------

Warning	National number is required for Belgian citizens.	Rijksregisternummer is verplicht voor Belgische onderdanen.	Le numéro national est obligatoire pour les ressortissants belges.
---------	---	--	---

Acceptance Criteria

- I got the error messages / warnings in the correct language.
- When I get a version in 3A to test and one of the rules fails (Fun Factor), the team will sing "Volare".
